Python, Django, Agile Methodology, AWS, Kong Api Gateway, Django Rest Framework, FastAPI, Flask, MySQL, React JS, Elastic Search, Linux, Git, GitHub, Celery, NGINX, Pandas.

LINKEDIN

EXPERIENCE

JULY 2023 - PRESENT

Software Developer | Brane Enterprises | Hyderabad

Achievements/Tasks

- Designing and building admin micro-services which support role-based access controls (RBAC).
- Implemented RESTful APIs to facilitate seamless communication between front-end and back-end systems.
- Developed a responsive and dynamic user interface using React.js, enhancing the user experience for a chat application by implementing intuitive design principles and ensuring cross-browser compatibility.
- Utilized modern React.js features such as hooks, context API, and functional components to improve code efficiency and maintainability.

DEC 2021 - JULY 2023

Senior Associate | State Street | Hyderabad

Achievements/Tasks

- worked as a senior associate in automation and ai team.
- Built, maintained, tested troubleshoot backend features in Python and integrated front-end.
- Used Agile methodology to manage project tasks and ensure continuous integration and delivery.
- Held regular sprint meetings and used Agile tools to track progress and manage tasks.
- Won hackathon to develop one of the business use cases conducted by state streets across the globe.

FEB 2021 - DEC 2021

Software Development Engineer - I | EDGE - Bangalore (Remote)

Achievements/Tasks

- Building APIs web applications using Flask Framework and Python.

<https://www.linkedin.com/in/dinesh-bhupathi-a277a9164/>

- Delivered project components on time by following Agile principles of incremental development and feedback loops.
- worked on Elasticsearch and Postgres for storing and retrieving data.
- Designed and developed a Flask-based backend to render GitHub user details by extracting usernames from resumes.
- Utilized the GitHub API to fetch and display user profiles, repositories, and other relevant data.

JULY 2020 - FEB 2021

Jr. Full stack Developer | Red Chillies Entertainments | Mumbai (Remote)

Achievements/Tasks

- Developed and maintained web applications using Django for the backend and modern JavaScript frameworks for the frontend.
- Implemented real-time online user status tracking, enhancing user engagement and interactivity.
- Integrated Elasticsearch to enable fast and efficient user search functionality, improving user experience.
- Collaborated with cross-functional teams to gather requirements and deliver robust, scalable solutions.

MARCH 2019 - JUNE 2020

Backend Developer | Cygen HealthTech | Hyderabad

Achievements/Tasks

- Analyzed system requirements specifications and client interaction during requirements specifications.
- Involved in analysis and design of the application features.
- Used Celery as task queue and RabbitMQ as messaging broker to execute asynchronous tasks.

EDUCATION

Rbvrrit | Abids, Hyderabad

Master of computer applications
